PROFILE

Hi, nice to meet you!

I'm Dominik, a skilled and passionate web developer. I have a strong foundation in computer science principles and experience in a variety of programming languages and technologies, including Node.js, MongoDB, Docker and Vue.js. I have a track record of success in developing dynamic and responsive websites and API services for clients.

I am excited at the opportunity to bring my skills and experience to a new organization.

EXPERIENCE

Web Developer at Fisher German 01/2022 – Ongoing

Learned how to:

- Maintain and improve old legacy systems written in PHP.
- Optimize development and deployment process with Docker and Portainer.
- Work with large MongoDB and Elasticsearch datasets.
- Display data to the business (ElasticSearch, Kibana).
- Design ERDs and UMLs for new systems.
- Create REST APIs in PHP and Node.js.
- Create front end and consume APIs with Vue.js 3.
- Work in Agile environment.

Co-Founder and Web Developer at DooApp Ltd 07/2020 – 01/2022

My responsibilities included building responsive and efficient web applications using the MERN stack, designing user-friendly interfaces, and collaborating with executives on decision-making and company management. I worked to ensure that all projects were completed to the highest standards and delivered on time.

Forklift driver at NEOVIA Logistics Leicester 12/2019 – 01/2022

As a forklift driver, I was responsible for operating and maintaining a variety of material handling equipment in a fast-paced warehouse environment. My duties included loading and unloading lorries, moving and organizing inventory, and ensuring that all safety protocols were always followed.
